

**In the Claims:**

Please amend claims 1, 10, 17, 20, 62, and 71 as set forth below:

013  
C11

1.(Twice Amended) A method for organizing a plurality of images obtained from a defined source, comprising the steps of:

- providing a database for storing digital images with respect to a customer account;
- providing at least one image that is stored on said database and associated with said customer account; and
- automatically providing a product with respect to said at least one image stored on said database after reaching a predetermined criteria established prior to receipt of the images required to provide said product.

013  
C12

10.(Once Amended) A system for organizing a plurality of images obtained from at least one image retaining device each having a unique ID, comprising:

- a computer having a database for storing digital images associated with a customer account and a management section for managing customer orders with respect to said customer account and said stored digital images, said management section capable of receiving and storing said unique ID and registering said at least one image retaining device to said customer account, said computer associating a particular goods and/or services to images obtained from said at least one image retaining device prior to the receipt of the images required to provide said particular goods and/or services.

013  
C13

17.(Twice Amended) A method for organizing images obtained from a plurality of discrete image retaining devices with respect to said customer account, comprising the steps of:

- providing a plurality of discrete image retaining devices, each having a unique ID;
- obtaining the ID from each of said image retaining devices;
- providing a first group of said image retaining devices;

C13  
P13

forwarding the ID for each of said image retaining devices in said group to database of a network photoservice provider for storage prior to said network photoservice provider receiving said image retaining devices for association with said customer account.

---

C14  
P13

20.(Twice Amended) A system for organizing images obtained from a group of a plurality of discrete image retaining devices with respect to a customer account, each image retaining device having a unique ID, comprising:  
a computer having database for storing digital images and a management section for managing customer orders and said stored digital images with respect to said customer account, said management section capable of receiving and storing said unique ID of said group of said plurality of image retaining devices and registering said group to said customer account, said computer associating a particular goods and/or services to images obtained from said group of plurality of image retaining devices prior to receipt of said group of plurality of discrete image retaining devices required for fulfillment of said particular goods and/or services.

---

C15  
P13

62.(Twice Amended) A system for organizing a plurality of images obtained from a plurality strips of photographic film, each of said plurality of strips of film being provided in a discrete film cartridge, each of said plurality of strips photographic film having an unique ID recorded thereon, comprising:  
a computer having database for storing digital images and a management section for managing customer orders and said stored digital images, said management section capable of receiving and storing said unique ID of said group of said plurality strips of photographic film and registering said plurality strips of photographic film to a customer account using said unique ID prior to receipt of said plurality of strips of photographic film required for fulfilling of said customer orders.

---

C16  
P13

71.(Twice Amended) A method for organizing images obtained from at least one image retaining device, comprising the steps of:  
providing at least one image retaining devices having a unique ID;

013  
C16 obtaining the ID from each of said at least one image retaining device; and

forwarding the ID for said at least one image retaining device to a network photoservice provider for association with a customer account prior to receipt of said at least one image retaining device.
